

EasyChange system *understructure* iDecking Revolution patented removable system

TECHNICAL DATASHEET

▣ **Description**

EasyChange is the only system in the world which allows you the ability to remove and replace every single board of your deck using a special iDecking key. No need to utilize any drills, screws, spacers or “obsolete” clips to install the decking. The EasyChange system helps ensure a quick and simple troublefree installation.

▣ **Characteristics**

Material	Aluminum
Clips Material	Nylon
Clips number on a bar	15 / 18 pcs average
Clips Assembly on aluminum	Pre-assembled
Weight	2,4 / 2,6 kg
Lenght	207 cm
Packaging	Pallet (512 pcs)
Jack Supports Interval	60 cm max
Installation limit	none

▣ **How to use**

EasyChange is comprised of an understructure which comes with pre-spaced special rotating nylon cams. Decking boards are then locked in place with a simple turn of the EasyKey.

▣ **Installation Video**
